

Preschool & Childcare Center, LLC

### Health Policy 2013

Parents are asked not to send their child to Child Care/Preschool if they have any of the following conditions:

- |                        |                                 |
|------------------------|---------------------------------|
| <b>Sore Throat</b>     | <b>Nausea &amp; Vomiting</b>    |
| <b>Lice</b>            | <b>Diarrhea</b>                 |
| <b>Strep Infection</b> | <b>Staph Infection</b>          |
| <b>Enlarged Glands</b> | <b>Inflamed Eyes</b>            |
| <b>Earache</b>         | <b>Skin Rash (unknown)</b>      |
| <b>Congestion</b>      | <b>Nose/Eye Discharge</b>       |
| <b>Temperature</b>     | <b>Any Contagious condition</b> |

If a child has any of the above symptoms, parents are to keep their child home until they are 24 hour symptom free or until a doctor allows the child to return to child care/preschool. This will help prevent the spread of disease to others and the possibility of children coming down with the original infection again.

If your child is too sick to go outside they are too sick to come to school. The American Academy of Pediatrics encourages children to spend time outside daily. The AAP finds that children spending time outside decreases the likelihood of children having an illness.

If children have been exposed to anything contagious or unusual while in the building a written "MEDICAL ALERT" will be posted on the main door.

While at the center, the parent or legal guardian will be called to pick up the child if he/she exhibits signs of being ill. Children showing signs of being ill will be separated from the other children until he/she can go home. Anything the ill child touches will be cleaned and disinfected.

Children will have a health appraisal on file signed by a physician 30 days after admission to the program and renewed every year for infants and toddlers and every two years for preschool children. Once the child is school age, the parent will sign a statement of good health for the child. Also before the child's first day of the program the parent will present an updated shot record to the director.

Any contagious conditions will be reported to the Health Department, weekly.

I have read and understand the above Health Policy put into place by Kidzone Preschool and Childcare Center, LCC. I agree to uphold these policies.
